# MICROWAVE ABSORBERS - GT 702 EX

GT 702 is a carbon loaded silicone foam. Its is an achieving multi-layer sheet with progressive rates of carbon filled.

- Excellent sealing
- Mounting face adhesive support (acrylic)

PROPERTIES	GT 702 EX
Material	Silicone foam (closed cell)
Density	0.5 g/cm <sup>3</sup>
Range frequencies	1-18 GHz
Working temperature	-50°C to 150°C

— Attenuation (dB) GT702 5 mm  
— Attenuation (dB) GT702 10 mm

### Standars sheets dimensions :

150 mm x 150 mm (from 4 to 30. mm) : up to 20 mm contact us  
300 mm x 300 mm (from 4 to 20 mm) : up to 20 mm contact us

### AVAILABLE FORMATS

- Sheet
- Cut
